

1  
2 **INDOOR AIR QUALITY**  
3

4 In order to ensure that all school buildings maintain air quality that protects the health of  
5 all occupants, the Shaker Regional School Board (SRSB) directs the Superintendent to  
6 evaluate physical conditions that can impact air quality such as general cleanliness,  
7 ventilation, moisture control, emissions from motorized vehicles, as well as chemical use  
8 and storage. The Superintendent may delegate the evaluation of air quality to the  
9 Director of Buildings and Grounds. The SRSB encourages the Superintendent to utilize  
10 methods and recommendations established by various State agencies.

11  
12 The Superintendent and/or Director of Buildings and Grounds shall annually investigate  
13 air quality in Shaker Regional School District (SRSD) school buildings using a checklist  
14 provided by the New Hampshire Department of Education. The Superintendent is  
15 authorized to establish regulations and/or administrative rules necessary to implement  
16 anti-idling and clean air measures aimed at improving indoor air quality.
